PARENTS' ROLE

Competitive swimming programs provide many benefits to your athletes such as, self discipline, good sportsmanship and time management skills. Competition allows the swimmer to experience success and to learn how to deal with defeat while becoming healthy and physically fit.

As parents, your major responsibility is to provide a stable, loving and supportive environment. This positive environment will encourage your child to continue in the sport. Your role is to show interest by ensuring your attendance at practices and by coming to inter club meets.

Parents are participants on their child's team and contribute to the success experienced by the child and his or her team. Parents serve as a role model and their attitudes are often emulated by their children, we therefore urge you to be aware of this and to strive to be positive role models and show good sportsmanship at all times towards Coaches, officials, opponents, other parents and teammates.

Remember that your child is the swimmer and that children need to establish their own goals and chart their own progress themselves. Be careful not to impose your own standards and goals upon them.

Do not over-burden your child with winning or achieving best times as the most important part of their swimming experience is to learn about himself/herself while enjoying the sport. This healthy environment encourages learning and fun, which will develop a positive self-image within you child.

Note: that the best way to help your child achieve his/her goals is through positive reinforcement. No one likes to make mistakes, if your child does make one they are still learning. Encourage their efforts and identify the things they did well. As long as they gave their best, you should make them feel like a winner.
